The Honorable Patrick Leahy
Chairman
Committee on Appropriations
U.S. Senate
Washington, DC 20510

The Honorable Richard Shelby
Vice Chairman
Committee on Appropriations
U.S. Senate
Washington, DC 20510

The Honorable Rosa L. DeLauro
Chairwoman
Committee on Appropriations
House of Representatives
Washington, DC 20515

The Honorable Kay Granger
Ranking Member
Committee on Appropriations
House of Representatives
Washington, DC 20515

Dear Chairman Leahy, Vice Chairman Shelby, Chairwoman DeLauro, Ranking Member Granger:

The National Demolition Association (NDA) represents nearly 500 U.S. and Canadian companies that offer standard demolition services as well as a full range of demolition-related services and products. NDA educates members on the latest advances in equipment and services, provides educational programs and tools to stay abreast of regulatory and safety matters and keeps regulators informed about issues in our industry. NDA also increases public awareness of the economic and societal benefits of demolition.

On behalf of NDA members, I write today to highlight the legislative priorities of the demolition industry as your committees work to draft an omnibus appropriations bill for the remainder of fiscal year (FY) 2022. In this time of economic uncertainty, the FY 2022 appropriations bill gives Congress the opportunity to come together to support bipartisan initiatives that will help lay the groundwork for a strong economic recovery.

NDA remains committed to policies that sustain economic growth, strengthen the American workforce and further environmental stewardship. To this end, NDA urges Congress to support the demolition industry and small businesses by prioritizing the following programs:

- **Workforce Development:** NDA supports policies to address the shortage of qualified candidates for high-skilled jobs by improving the STEM (Science, Technology, Engineering and Mathematics) education system and other efforts to increase the pool of qualified candidates for technical jobs on demolition sites. This includes programs to boost and encourage apprenticeships, work-based learning and vocational training.
- **Infrastructure:** Congress should continue to support investments in infrastructure projects, specifically facility rehabilitation, construction and demolition, in schools, hospitals, water/wastewater, electricity, airports and inland waterways, ports and other public facilities.
- **EPA Brownfields Cleanup:** NDA members are committed to working with the federal government to facilitate the appropriate handling of hazardous areas and support proposals to provide robust funding for the Environmental Protection Agency's (EPA) Brownfields Grant Program.
- **Disaster Recovery:** NDA members are experts in assisting communities in the wake of devastating man-made and natural disasters and recovering in the most effective and efficient manner possible. NDA supports robust disaster recovery funding that helps return displaced residents to their homes and encourages the timely rebuilding of disaster impacted areas.

- **Community Development Block Grant:** NDA strongly supports current proposals to provide robust funding for the Community Development Block Grant (CDBG) program.
- **Small Business Relief:** NDA supports programs that help small businesses and entrepreneurs access capital and contracting opportunities through the Small Business Administration.

Thank you for the opportunity to provide comment on these important priorities. Please contact NDA's Director of Government Affairs Kevin McKenney at kmckenney@demolitionassociation.com or 202-367-2480 with questions.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Lambert", written in a cursive style.
